Rivergate Park is the new home for **WRRA & SRL**

Rivergate Park protects, preserves and promotes public access to the Cuyahoga through low-impact recreational use of the river. It benefits recreational organizations, promotes healthy lifestyles, environmental sustainability, and is an economic development catalyst for the area.

Recreation: Cleveland Rowing Foundation relocated to Rivergate Park in November 2010. CRF is bringing a variety of recreation opportunities to the area, including rowing, kayaking, dragon boating, and bicycling in 2011 with further program expansion planned for the future.
